

SIZE CHARTS FOR DIVE

To see how Bare-Fit works, please refer to the size charts. Start with your weight, then narrow down your choice by checking the height, chest, waist and hip measurements. If you find you're between two sizes, try on both.

DRYSUIT MEASURING TIPS

1. When measuring customer for a STOCK size Drysuit, customer should wear minimal clothing.
2. Select size from above charts.
3. Drysuit design already accommodates appropriate underwear choice, as long as the diver is not at the upper end of the weight and height range for the size selected.
